prices subject to change | delivery not included

SUSTAINABILITY FEATURES

- Ships flat-packed
- Minimal use of materials
- Contains no hazardous materials such as mercury
- 97% of material is recyclable
- Lasts for 50K hours or 25 years of daily use
- Uses only 7W of power (90% more efficient than a comparable halogen light source, 40% more efficient than CFLs)
- Designed for disassembly
- Disparate materials are easy to separate for recycling
